

# Active subwoofer SUB-9

wilson

## GREAT TO WORK WITH STEREO OR HOME THEATER SYSTEMS

The Wilson SUB-9 can be connected to all stereo amplifiers and AV receivers and is easily customized to meet the needs of your surround or stereo sound system.

### CABINET DESIGNED TO MINIMIZE VIBRATIONS AND RESONANCE

The MDF enclosure construction provides excellent low-frequency sound without distortion - no unwanted resonance or vibration from the enclosure, and the superior tunnel Bass Reflex system provides maximum bass response.

### COMPACT ON THE OUTSIDE, POWERFUL ON THE INSIDE

Visually, the subwoofer retains a classic and compact form that matches most rooms, without betraying at first glance what is inside them.

### EASILY FIT TO THE ROOM FURNITURE

Thanks to their relatively small size, toned down color of housing finished with veneer with imitation of a delicate grain of wood in Black, safely fits the environment without imposing style of the remaining furniture in the room.

wilson

## ADVANCED BUILT-IN AMPLIFIER

The Wilson SUB-9 has a built-in low-pass filter - so it is recommended that you set the low-frequency cut-off on your amplifier to its maximum value and adjust this parameter from the subwoofer level (crossover knob) for optimal effect.

## COMPACT IN SIZE, POWERFUL WHEN WE TALK ABOUT BASS

The Wilson SUB-9 is a compact and good-sounding subwoofer in the elegant Wilson style. With an 8" (210mm) long-throw woofer, a robust cabinet, and a built-in 150W Class A/B amplifier, it provides good low-frequency support for both home theater surround sound and stereo systems.

## HIGH QUALITY COMPONENTS AND GREAT ENGINEERING

The robust 8" driver is built using only the highest quality materials and specially designed and precision engineered to match the cabinet and amplifier perfectly for superior performance at all volume levels.

## SPECIFICATIONS

Description	Active subwoofer
Type:	Bass Reflex system
Driver:	8" (210 mm) long-throw woofer
Inputs:	Cinch stereo input
Voltage:	220-240V, 50/60 Hz AC
Phase Switch:	0-180 degrees
Volume:	Adjustable
Frequency range (-3dB):	25 - 150 Hz
Cut-off frequency:	Adjustable
Output power:	150 W (RMS)
Available finishes:	Black
Dimensions:	305 x 275 x 310 mm
Weight:	9.20 kg
